Academic Recommendation

To Whom It May Concern,

I am pleased to recommend **Mr. ALHassan Baligh Hassan Mohammed ALShami**, who was my student in Database Systems and Data Structures at the Faculty of Computer Science & Information Technology.

He consistently showed strong analytical thinking and an active academic attitude. I also evaluated his final year project, "**Object Tracking System**" which reflected both solid technical knowledge and clear application of machine learning principles.

I believe he is well-prepared for graduate-level academic work and research.

Sincerely,

Prof. Fadi BaAlwi

Professor of Artificial Intelligence

Dean of Quality Center

NGO/Community Recommendation

To Whom It May Concern,

I am pleased to recommend **Mr. ALHassan Baligh Hassan Mohammed ALShami**, a responsible and collaborative student I have taught.

He has shown awareness of social impact through tech, and a respectful, team-oriented attitude in academic settings.

He would be a valuable contributor to any nonprofit or community-focused organization.

Sincerely,

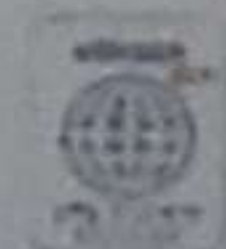

Prof. Fadl BaAlwi

Employment Recommendation

To Whom It May Concern,

I am pleased to recommend **Mr. ALHassan Baligh Hassan Mohammed ALShami** for professional opportunities in the tech field.

He showed reliability, structured thinking, and technical capability during my courses and in his final project, **“Object Tracking System.”**

ALHassan is focused, communicative, and works well both independently and in teams.

Sincerely,

Prof. Fadl BaAlwi
